CICERO.

WEDNESDAY, JANUARY 9, 1884.

Associated Press Telegrams

HAVAS' AGENCY

Paris, 7th.

The latest news from Tonkin is more assuring. The King of Annam has adhered to the Treaty of 1874 and the other conditions afterwards stipulated by France, and which provoked hostilities.

London, 7th.

In spite of the suggestions of the British Government, the Khedive persists in retaining the sovereignty of Soudan, and categorically refuses to abandon Khartoum to the insurgents. In face of the difficulties of the situation the Egyptian Chbinet has resigned "en masse."

LATEST NEWS

PRESS TELEGRAMS.

The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues:—

Rio, 8th.

Two steel cruisers are being laid down in Arsenal here.

Emperor will go to Europe to recruit his health. Some say he will go first to Montevideo.

Rains have injured coffee crop at Santos.

Bad weather all along the coast.

Montevideo, 8th.

Grand banquet will be given to Minister Moreno.

New Argentine steamer Rivadavia arrived from San Vicente, for Uruguay route.

Jose M. Cibils has bought the house where the Sala de Comercio is for 21,000 pats.

Rumour here that General Mansilla will be named Minister of War, and Dr. Victorica will go to the Senate.

San Felipe Theatre sold for 65,000 pats.

Apolo and Rio Uruguay go up.

Rosario, 9th.

Decree expected to-day rescinding the suppression of the Municipalities.

Police have stopped the masked balls.

PROVINCIAL GOVERNMENT DEPARTURE.

On the first of February next some of the principal departments of the Provincial Government Administration will move out to the new Provincial Capital La Plata, and although the news cannot cause much surprise to the newspaper reading public of this city, since for the last year the papers have been filled with news of the progress of the new city, still there is a certain suddeness in the notice which might admit of some doubt, but that bids are called for for the boxing and packing up of the papers and archives of the departments under order of removal.

Governor Rocha himself has intimated to the chiefs of those departments that their offices are to be opened on the first of next month in the new Capital, and, as may readily be imagined, the news has spread little short of consternation in Government circles, the rumour being current yesterday that many of the employees intend to resign, which we believe would be an error on their part, in view of the Todavia some months later, all the remaining departments of the Provincial Government will also move out; and in May 1884 the whole "posse comitatus" of the Provincial Government will be firmly established in its new seat of Government.

It is estimated that when the whole Government, with the Provincial Tribunals, move to La Plata, the hegira will number one way or the other fifty thousand souls, and that such a wholesale removal of families must lead to a proportionate fall in house rents in this city.

The population of Buenos Ayres is increasing so very rapidly that within the last year or two the Italian builders have been unable to supply new houses fast enough for the increasing number of tenants, and, as a natural consequence, house rents have risen from 25 to 30 per cent. Any one who strolls through the outskirts of the town will be struck with the number of new houses going up on all sides; yet, spite of all these new houses, rents show no tendency to decline, and hence it is that, viewed in this light, the hegira of the Provincial Government is hailed by many as the advent of lower rents and cheaper houses.

But these expectations may not be realised, and it is possible that, notwithstanding the removal of so many thousands, house rent in good streets remain as high as ever, and the removal of the Provincial Government will be felt more socially than otherwise.

Buenos Ayres has just begun to grow, and we must not base any of our calculations as to its future on the past, since, from all we can gather from the reading of the European and American papers, all the other countries are filled up, and the River Plate is now the only country so thinly and sparsely inhabited that for generations to come it will need all the emigration that Europe can supply to settle and people its vast territory.

The creation of La Plata will, therefore, merely extend the radius of Buenos Ayres; and the only difference we anticipate from the change is, that we shall henceforward have two cities instead of one at the mouth of the river, and before five years are about every one will wonder how on earth we managed to get along so well with only one.

CHINESE IMMIGRATION.

As the subject of Chinese immigration to the Plate has been recently brought very prominently before the public, and many parties viewed with favor such a measure, we think it may interest them to read the following letter which we extract from the London *Times* December 10th received yesterday.

"To the Right Hon. the Earl Granville, K.G., &c, Her Majesty's Principal Secretary of State for Foreign Affairs.

"British and Foreign-Anti-Slavery Society,
45, New Broad-street,
London, Dec. 6.

"My Lord,—I have the honour and satisfaction to inform your lordship that the scheme for introducing Chinese coolies into Brazil has been put an end to by the prompt and energetic action of Mr. Tong-King-Sing, the managing director of the China Merchants' Steam Navigation Company.

"Your lordship was informed by a letter addressed to Lord Edmond Fitzmaurice on the 27th of July last, that a deputation from this society had waited upon Mr. Tong-King-Sing respecting the contract which he contemplated making with the Brazil Government, and for which purpose he was about to proceed to Rio de Janeiro. After explaining fully to that gentleman the extreme danger that Chinese coolies imported into Brazil, under contract, would virtually become slaves, the deputation obtained a promise from Mr. Tong-King-Sing that he would not be a party to any contract for forced labour. This gentleman returned from Rio on the 4th inst., and the next morning he requested me to call upon him to hear the result of his mission. He then stated that the scheme had fallen through, and that I was at liberty to inform your lordship of what had occurred. Mr. Tong-King-Sing stated that, to his surprise, he found that the large subsidy which was to be paid to his Steam Navigation Company was not payable by the Brazil Government, but by the planters. He immediately put the very pertinent question, 'How are you gentlemen going to recoup yourselves for the money advanced?' The reply was what might have been naturally expected, 'Out of the labour of the coolies' Mr. Tong-King-Sing then said, 'This scheme must fall through. I will be no party to bringing Chinamen out here except as free immigrants.'

"He was to start last night for China to report the result of his mission, but he admitted that under these circumstances the company's steamers will not, at any rate for the present, be sent to Brazil at all.

"I am desired by the committee to thank your lordship for the prompt measures taken, by your lordship's directions, to call the attention of Her Majesty's Representatives at Rio and Pekin to the question of Chinese immigration into Brazil, and to express a hope that your lordship will request those Ministers still to keep this subject before them, as future similar schemes may at any moment be introduced in which the planters might have to deal with gentlemen less astute and not so large-hearted as Mr. Tong-King-Sing.

"I have the honour to remain,
your lordship's
obedient servant,
"*Chas. H. Allen*, Secretary."

The La France's Mails.

(*News to 15th December*)

A dispatch from Egypt, published in the *Daily News*, says that British troops will occupy Assuah and fortify it. Panic reigns at Suakin, which is closely invested by the insurgents. H.M.S. Ranger had to keep firing on the insurgents all the night through, to keep them from rushing on the town. The *Standard* says there is strong reason to believe that the Khedive's Government is supplying the insurgents with arms and ammunition. Baker Pasha had marched with troops to attack the False Prophet, whose influence and power increase every day.

Her Majesty gave a State Banquet at Windsor to the Crown Prince of Portugal, and the Prince of Wales gave him another at Marlborough House.

Public opinion is now in favour of a conciliatory policy in Ireland.

Desperate fight between Irish and Scotch soldiers. Several parties arrested for inciting the military to fight.

Banquet in Dublin to present Parnell with £38,000. He declared that the present generation was determined to leave its descendants an indisputable right to National Independence.

Gazette publishes provisional Treaty of Commerce between Gt. Britain and Spain.

The great tenor Mario has died in Rome. He was born in 1808. He had the title but not the estates of Marquis of Candia.

The Congress of the seven Australian colonies at Sydney declared unanimously in favour of annexing New Guinea and other islands in the Pacific, and also formally protested against any foreign Power being allowed to annex anything whatever in Oceanica, south of or on the Equator, and demanded the annexation to the British Empire of New Guinea (saving what the Dutch claim on its western side) and all the other islands round it. The Congress also demanded the intervention of the Imperial Government in the New Hebrides, and protested strongly against the project of France to transport its hardened criminals to New Caledonia, asking the Imperial Government to do everything in its power to prevent it.

China is preparing vigorously for war. Tse-Tsung-Tang is named commander in the Southern Seas, and presided lately at very successful torpedo experiments at Shanghai. At Canton they are preparing to sink junks, to impede the navigation of the river Three thousand Tartar troops have left Kirin for Pekin.

The British squadron in Chinese waters consists of 24 vessels, two of which are ironclads. The French have nine ships, three of them ironclads.

Ferry declared that if China do not accept an honourable peace, Admiral Courbet will seize a second rate Chinese port.

The French Ambassador in London had telegraphed to Paris that China is disposed to listen to fresh proposals; but Marquis Tseng told Lord Granville that China will accept no proposals for peace till Bacninh and Songtai are evacuated by the French.

French Ambassador in Berlin has been summoned to Freiderichsruhe, to confer with Bismarck about Tonkin.

Leaders of Radical Party in Servia condemned to ten years' hard labour.

Great political importance is attached to the visit of the German Crown Prince to Rome. The Vatican was officially informed of the visit. Emperor William says his son's visit to Rome is merely to thank King Humbert for the kind reception of the Prince at Genoa. There is a thorny question of etiquette about the double visit to the King and the Pope. If the Prince "puts up" at the Quirinal, the Pope cannot receive him. The festivities will be splendid, as the Prince will be in the Eternal City during the gorgeous Easter Feasts, which attract visitors from all parts of the earth.

The pirates near Haiphong have been beaten by the French, who only lost two men in the fight.

In Hong Kong they say the French should have a larger garrison in Haiphong, as it is the base of their operations, and the Chinese troops at Bacninh threaten to cut off their communications between Hanoi and the sea. The Chinese General Bang had arrived from the north with 4,000 veteran troops, to protect Canton, whilst another corps marched for Tonkin. The secret Chinese societies are trying to rouse the people against foreigners. The Viceroy assured the United States Consul, Mr. Seymour, that he had force enough to maintain order, and foreigners need not be afraid.

Ferry still continues his negotiations with the Chinese Ambassador. The march of the French troops on Songtai and Bacninh was countermanded, as a conciliatory measure.

Several ships with reinforcements are ordered to Tonkin.

Admiral Lespes has left to take command of the French squadron in Chinese seas.

Awful storm on the French and English Coasts. Many ships and lives lost.

The Tagus's Mails.

London December, 10.

Our Special Correspondent at Cairo telegraphs that another terrible disaster to the Egyptian troops occurred near Souakim on the 2nd. The force consisted of 720 men. According to the statement of two surviving native officers, this force was almost annihilated. The total loss is said to be 682. The troops were, it is said, surrounded by 5,000 men, and formed square. Some of the troops fell back, and threw the others into disorder. The latter nevertheless fought with great bravery against overwhelming numbers. Baker Pacha expects to leave for Souakim on Wednesday. In military opinion, our Correspondent says, it will be impossible for him to march to Berber, and he will for the time merely watch events.

Our Varna Correspondent says that the Porte continues very anxious respecting the Mahdi and the impression which his victories may produce on the Mussulmans of the Turkish Empire. Orders have been given to contradict the report of his success, and the authorities in Mecca and Medina have been commanded to do their utmost to prevent his messengers from entering those sacred cities.

A telegram from our Special Correspondent at Hong Kong states that an organised plan of a night attack on Haiphong by the Chinese has been frustrated. The Chinese advanced close to the place, and burnt a large village. Gunboats and troops were despatched against them, and they were completely routed.

In the French Chamber on Saturday the debate on the Tonquin credits was resumed, and adjourned until to-day.

A despatch from Rear-Admiral Galifer, the French Naval Commander in Malagasy waters, has been received by the Minister of Marine in Paris. It states that several posts on the eastern coast have been destroyed by the guns of the French vessels. The health of the men on board ship was good, but among the forces on shore there were several cases of fever.

Our Correspondent in Rome telegraphs that the news of the approaching visit to that city of the German Crown Prince has created a considerable stir in the political and diplomatic world. Apartments, our Correspondent adds, are being prepared for the Prince at the Quirinal.

A telegram from our Correspondent in Rome states that Monsignor Savarese, a Doctor of Civil and Canon Law and Domestic Prelate of the Pope, has sent in his resignation to the Cardinal Secretary of State. Yesterday morning Monsignor Savarese was received into the communion of the Episcopal Church in Rome by Dr. Nevin.

Our telegrams from Sydney give further details respecting the constitution and objects of the proposed Federal Council of the Australian Colonies. The first session is to be held in Hobart Town.

A deputation of twelve Congressmen waited on President Arthur on Saturday, and asked him to open negotiations through Mr. Lowell for the postponement of O'Donnell's execution. Our New York Correspondent says that their action is merely an attempt to curry Irish favour. American sentiment approves O'Donnell's sentence. The President received the deputation politely, and said Mr. Lowell should be requested by telegraph to make inquiry in the matter.

The Rev. Stopford Brooke preached yesterday morning at Bloomsbury Chapel upon the subject of Outcast London, taking for his text the 26th verse of the 12th chapter of the first Epistle to the Corinthians. In doing so he contended that in no other great civilized city, not even Paris or New York, was there such a mass of wretchedness, squalor, and degradation as in England; and, in conclusion, he said that if the Bill which the London Municipal Reform League were pushing forward for a municipality for London would help to bring about a better state of things, in God's name let us give it a trial.

The stock markets on Saturday were quiet and dull. Prices of Egyptian and Spanish stocks receded ⅛ to ¼ per cent, and home railway stocks ¼ to ⅜, but Mexican railways stocks advanced 1 to 1¼ per cent. Consols further declined to 100⅛, ¼ ex div. for money and to 100 5-19, 7-19 ex div. for the account. £43,000 in gold was withdrawn from the Bank on balance for abroad.

LONDON LETTER.

(*From our own Correspondent.*)

MEMOIRS OF THE PRINCESS ALICE.

November 27th.

In Britain, great and small, and wherever there is an English-speaking people, Monarchical or Republican, the family life of the Queen and her children is a topic dear to every heart. English women and American women love to see their own lives, virtues and domestic sentiments reflected on the heights of Windsor, and repeated in the quiet chambers of Balmoral. Penetrating the panoply of State, and drawing aside the tapestry of Windsor, blazoned with the achievements of a thousand years, the Royal household of England is almost a parody of that of any other upper-middle-class dwelling in the realm. A parody, because the cares and trappings of Royalty are thrown aside with eagerness to revel all the more in the domestic affections, the privacy and simple pleasures which seem bound up in the youthful associations of each of us with tall elms and cawing rooks, with sunlit gardens, the bloom of the peach, the aroma of lavender, the fragrance of the tea-urn, the gleam of the fire on book-case and old china, and, as the bishops would complete the picture—with the rattle of Huntly and Palmer's Reading biscuits. More than a third of a century ago Windsor was a happy home with papa and his broken English, mamma with her quick South country gabble, and the chatter of "Vicky" and little "Bertie;" and there, too, was little Alice, the "beauty of the family," as papa called her, or as mamma used to say, "a very vain little thing," in low-bodied frock and necklace of pearls, fondling on her fourth birthday a pet lamb bedecked with pink ribbons and little bells. Alas! "Milly," the lamb, will not always remain with its mistress, but playfully jumps away and butts at her, although she treats it in a very tender manner and asks it, in a most loving tone, with many kisses on its nose—"Milly, [my dear Milly, do you love me too?" Well, time grew apace, and the child in a necklace of pearls becomes a maiden, and in an extremely devout frame of mind—calm, gentle, full of self-command, and deeply impressed with the importance and solemnity of the act, the young lady is confirmed; and then, in due course, comes another event natural to early womanhood, an event which is almost dramatically, or rather novellatically, foreshadowed, and in the Queen's own words, which I take from some early sheets, which have been published, of the forthcoming "Memoirs of the Princess Alice":—

In June, 1860, during the Ascot Races, the Court at Windsor received numerous visitors, amongst whom were the King of the Belgians and the two Princes, Louis and Henry of Hesse, sons of Prince Charles, and nephews of the then reigning Grand Duke. After they had left England, Prince Albert hinted to Baron Stockmar that Prince Louis and Princess Alice had evidently taken a fancy to one another, and that he had no doubt his family would take further steps. Accordingly, a letter soon arrived from the Crown Princess in Berlin announcing that the mother of the Prince had told her of her son's] inclination, and shortly afterwards it was arranged at Mayence, while the Queen and the Prince Consort were making a Continental tour, that the young Prince should pay a second visit to England, for which purpose the Prince Regent of Prussia, now German Emperor, was to be asked to grant him leave. On the 30th of November the Queen wrote in her diary:—

"Whilst I was conversing with the gentlemen after dinner, I observed that Alice and Louis, standing before the fire, were conversing together more earnestly than usual, and as I passed to go into the next room, both of them came towards me, and Alice said with great agitation that he had proposed to her and asked for my blessing. I could only press his hand and say, 'Certainly,' and that we would like to speak to him later on in our room. We spent the evening as well as we could, working. Alice came to our room agitated, but calm. . . . . Albert sent to Louis and] asked him to come to his room. He first went to him and then called for me and Alice. . . . . Louis has a warm and noble heart. We embraced our dear Alice and praised her very much to him. He pressed and kissed my hand, and I embraced him. After talkiug together for a while we separated—a most touching and to me solemn moment."

Let us pass over the Bill settling the dowry and annual income, in reference to which Prince Albert said pithily, "they wont be able to live very extravagantly on it."

Of the indelible impression which the death of her father made on the young *fiancée*, the Grand Duchess of Baden said:—

"The amount of labour and anxiety gone through by the Princess Alice has amazed every one. Herself filled with indescribable grief at the death of her dearly-loved father—and what a father, what a head of a family, what a friend and councillor for his wife and children!—she at once took into her own hands everything that was necessary in these first fearful moments of the destruction of the happiest and most blessed of households. . . . All communications from the Ministers and household passed through her hands to the Monarch weighed down by her grief, With word and pen she was busy in relieving the Queen of all burdens as far as in her lay. The decision so devolved on the Queen to make, to leave Windsor directly after the Prince's death and to go to Osborne, according to the earnest wish of the King of the Belgians, was come to owing to her influence alone."

The second section of the book begins with the first impression on returning home, which are described in the following letters from her own pen:—

"Royal Yacht, July 9, 1862.

"Darling Mama,

"Before leaving the yacht I must send you a few lines, to say good-bye to you again, and to thank you over and over again for all your kinndess to us.

"My heart was overflowing when I took leave of you and all my dear ones at home; I had not the courage to utter a word, but your loving heart understands what I felt."

"Darmstadt, July 13, 1862.

" . . . On reaching Bingen yesterday, all the Hessian State officials received us. At every station we saw new people, and had to speak to them. It was the same at Mayence, where the splendid Austrian band played, [while we waited in the pouring rain, which only stopped when we reached Darmstadt. At the station before Darmstadt the Grand Duke, Prince and Princess Charles with their children, Prince Alexander and his wife—all extremely kind and cordial—received us.

. . . . . .

"Then we went to our rooms, which are very small, but so nicely furnished, and with such perfect taste, everything a present from my own dear Louis; they look quite English.

"Then we drove to Bessungen to dine *en famille*.

"Yesterday evening we listened to twelve Choral Unions, consisting of 200 people; it was quite beautiful; but it was pouring rain. Same of the singers came up to us dripping with wet to be presented to us.

"The Grand Duke gave me a beautiful diamond bracelet, which he and his wife had ordered for me, and took me through all his rooms.

"To-morrow we receive the nobility and the members of both Chamber. My thoughts, or rather *our* thoughts are always with you, darling mama. Please give my love to all at home; it is impossible to write to them all." . . . . .

"July 19th.

"Darling Mama—Many thanks for your last kind letter, and all news from home; dear baby is the only one you don't mention, and I am so often thinking of her.

"At one o'clock some people came to us, and then the Ministers. It is really very difficult always to find something that one can say to all these people, and there they stand, expecting to be spoken to.

"Yesterday we received a deputation from Giessen; they handed us a very beautiful dressing-case as a present.

"Louis and I have begun to read 'Westward Ho!' together,

"A few days ago the Grand Duke came to Kranicstein to please me, and walked till he got quite hot. He won't allow me to visit his other country seats before his return, as he wants to conduct me over them himself.

"I don't see much of the other relations, except at meals; and as we have our own carriage, we two generally drive out alone,

"We generally drink tea out in some nice spot where we have driven to."

(*To be Continued*)

THE STUBBORNNESS OF CHUPAT.

(*From our Occasional Correspondent*)

(*Continued.*)

The above heading is meant as a mild "riz" on your correspondent "A"'s magnanimous peroration, wherein he is disposed to "leave the few FANATICS at Chupat," when the millennial migration to the Rio Negro occurs; or it may be made to mean what the *Standard* has often called "the PLUCK of our countrymen down South." But the immediate appropriateness of the word to what shall herein follow is its graphic place in the old English adage—"facts are stubborn things." They are often laughed, spat at, kicked at, or attempts are made to hide, thwart, or contort them; but, sphinx-like, after a dust-storm they remain loftily "stubborn."

A dust-storm has been blowing over Chupat, blinding even our old friend the *Standard*, so that a few touches of the "plumero" are necessary to make us recognisable to ourselves and your readers.

It would be puerile to follow your correspondent through the many slight lines, grey shades and dark shadows which go to make up his sketch—"the sheepowner whose misfortune it was to have too many lambs, but too few customers for capons at $100 each"—"calves chewing old bags"—"the poor (!) woman who depended on butter and eggs for a maintenance"—"the two horses which were to eat up one another"—store placards of 'no se fia,'"—"nothing but pebbles and baked mud"—"the schoolmaster's headache and haggard appearance battling with Welsh"—and the black daub as a finish, "in short, nothing less than a famine may be expected." Such phrases, thus isolated, perhaps will the better show your readers of what materials the sketch was make up.

Analysing the article for any tangible statements to lay hold of, one finds it is but a cloud of impressions, vague and gloomy. It is not likely any reader will so analyse it, except we who are interested. Hence to dispel the impressions so cleverly conjured and portrayed, we can only trust to time and "facts."

Perhaps the insinuations may be grouped thus:—1. That the Valley of the Chupat is a barren, worthless area. 2. That the labour spent on it is clumsy and in vain. 3. That the settlers are in the direst poverty and wish to be removed elsewhere. 4. That there are but two alternatives, viz., that Government (!) should canalise the Valley or that the settlers be removed to (mark!) Rio Negro or Limay.

As to the first, the correspondent hazarded into details, and at once trips heels up. When he affirms that 7 fanegas of wheat to the acre is our utmost yield, and graphically dwindles it down to 'ruin' in 5 years, our farmers smile ironically at such a statement—not only as to the quantity, but as to the absurdity of anyone driving his land into consecutive crops in such a manner. The same want of practical experience led the correspondent to describe the alluvial bottom lands of Chupat in mid-winter, as if they should be in full verdure. Com. Roa, in his despatch recounting his march from P. Desire here, sensibly enough makes the remark that the valley of the Singyr river was devoid of pasture at that time of the year. In Patagonia, winter pasture is provided on the plateaux, with their innumerable 'cañadones,' and the valleys flourish in spring and summer, when moist, either by rain or irrigation. It would be quite as relevant to describe Canada and the Northern States as a land of snow by a traveller passing through in February. Do you now, Mr. Editor, see the trick? The correspondent heads his article "Chupat as it *is*" therefore was he quite right. Just as Nelson put the telescope to the blind eye, and could not see the signals to retire. But, Sir, is it not known amongst your brokers that the Chupat wheat is the finest grain in the market—its want of classification being the only reason why it is not $10 or $20 higher than any other. Our barley sells at $160 whilst the quotation for your ordiuary is $65; the growers here reaping up to 2 tons (18 fan.) to the acre. We shall have sent you some 10,000 fan. wheat this year; in 1881 we sent you 19,000 fan. We grow potatoes here, not like your Baradero marbles, but fisty and mealy like the old Irish before the blight. Our butter and cheese would be a rare luxury at Buenos Aires; a case in point—the veritable "poor (!) woman," maintaining her family of 9 on the produce of her cows and hens. The barren *look* of our valley in winter has often been marked by a new comer, but a glance at the condition of the cattle leads him to the natural inference that he has not seen or understood all. Darwin and Fitzroy, when they voyaged hereabouts in the old Beagle, described the valley as "fertile in the extreme;" whilst to your correspondent it is "baked mud and pebbles, poor, dry, arid, and full of fissures." And we who live here charge one another 10s. (shillings) an acre annual *rent* for wheat land.

Then you are told, Mr Editor, that the labor spent by the settlers on this barren land is a huge clumsy drudgery, and all in vain—concised scientifically thus: "I still hold that unskilled labor is time and strength spent in vain." Alas! for farmers' work and new settlements, especially so in the Argentine Republic, if "unskilled labor is time and strength spent in vain." A somewhat similar remark on the same subject was uttered at the very spot of the shattered dam, by a 'gaucho,' who, of course, thought 'unskilled labor' a degradation, but had a vague notion that 'gringos' have a 'maquina' for everything, when he said: "Why did you not have a machine to do it?" Science being only allied to capital and Government, is not likely to be allured into an out-of-the-way settlement of strugglers against nature in the rough. Nevertheless, as an incandescent emanation from the dynamos of Government we have had a few flashes of it here, viz, four several engineers to *study* the irrigation of the valley. By my reckoning the cost of these studies amounts to some $12,000 gold, debited against Chupat in the Government books; and recently estimates were presented for 115,000 $fts. more as the result of those studies. The studies have extended over seven years. In this interval the colony has exported, say 46,000 fan. of grain, and consumed say half as much, equal to 73,000@ $f.4 (quite a low average) we have $f.292,000 product of unskilled labor waiting for scientific studies. Last year the colony went in for science on its own account, and at an expenditure of unskilled labor equal in value to the skilled studies, effectively systemised the permanent irrigation of 120 farms of — kilometres each. This year, proceeding on the same lines of utilizing home science and unskilled labor, 200 more farms will be brought amenable to scientific culture. So that recently, the colonists have actually agreed to apprise the Engineering Department of Government that there is now no need to tax the nation any further in their behalf! remitting plans for the permanent canals which they have done for themselves!! Probably the Department will shrug its shoulders at such an unheard-of hardihood of unskilled labor, putting it down as a "capricho Ingles;" or may be proceed with the "projecto" and "presupuesto," and appropriate the works done as "UNAUTHORISED." Certainly a good deal of useless digging has been done whilst waiting for the scientific studies; nor do we deny the sturdy impeachment that hard work has been the word here—yea, even under many disadvantages not enumerated by your correspondent. But experience must be paid for, as well as science. However, let it not be supposed that the Chupat settlers confine their farming to unskilled brute ditch-digging. I wot me there are not more comfortable, decent farmhouses in the Republic than stud this valley; none of your crawling bullock-carts, but lively American waggons, trotting a 2 tons load of wheat 20 miles and back in a day; reapers and binders some 3 dozen; 4 steam threshers; 2 steam mills and 2 imported windmills—and so on; even ditch-digging is now done scientifically, by horsepower. Horace Greely in his pamphlet "What I know about farming," referring to Colorado, U. S. remarks that ditch-digging is simply subduing the weather under scientific control; but your scientific correspondent sees nothing in such mounds of earthworks here but "time and strength spent in vain." We are with H. G., reckoning our sluices a great improvement on the ever-recurring English downpour, or the miserable drizzle of a Scotch mist, or even the crisp, biting sleighing weather of the upper United States.

As to the colonists being in the direst poverty, it holds good in a sense, I am sorry to say, of a good many this year; brought about by three successive bad seasons and a consequent collapse of store credit. Yet all these sufferers are owners of farms, houses, cattle, horses, and implements. I doubt if anyone of them would sell his farm under £200, some not for £500. Their great staple, bread, is easily obtained, which with milk and butter forms the usual meal; not a very "substantial" one it may be, but quite up to the frugal macaroni and drugged wine of the lauded Italian. Anyone knowing colonizing life will easily understand these exceptional circumstances and exceptional persons—the "unlucky," and therefore discontented. Under the circumstances it would be quite natural that there should be a vague cry for removal among such. Practically, however, the ultimate result is that one half of the colonists are in full swing wheat growing in security; two-thirds of the other half are making sure works for the future—a blank season not being much of a strain for them; whilst the remaining third of the half, the real sufferers, will scrape a maintenance this season, and will be driven to perfect their canal for future operations.

And now comes the great panacea—for famine, discontent, pebbles, baked mud, ditching,, Welsh school, and all; removal to Rio Negro or the Limay! Verily, this looks uncommonly like a cruel joke. To transplant a people who are thoroughly located, all within 35 miles of the port, having accumulated conveniences and comforts in accordance with their own ideas, sanguine that they have close by behind them various mineral resources (which is their forte), and hoping soon to have something to say in their local affairs instead of the usual camp domineering, to transport these people to Conesa, Choel-e-choel or Fort Roca is a monstrous idea. Patagones has been settled over 100 years, but has neither a reaper nor a threshing machine yet. Gallop along the fine alluvial area on the south side from Biedma to the Guardia, say 20 leagues, and you will see but a succession of miserable huts, and the country all open—trodden into fine dust in summer or puddled mud in winter by the hungry sheep. This is all owned, has been owned for a century. The nearest homesteads for colonists would be Conesa, say sixty leagues up country, and certainly there is but a meagre remnant left. At that distance on the Chupat we have a valley twice the size. At equal to Choel-e-choel we should be at the foot of the Andes. Just now we are all plodding with wheat, by reason of transit conveniences. Slowly we shall occupy with sheep the hills and mountain, which we have at the distance of Conesa; but instead of dragging the wool for export, we have an eye on the tumbling rivulets as peculiarly adapted for factories to produce Welsh flannel. Once there, our shepherds being owners and quarrymen, would have an opportunity of testing geology, &c Now, why do I bandy these remote possibilities? Simply as a contrast to the long, monotonous repetition of 'travesias' and 'rinconos' of the Rio Negro. In extent—of plateaus and bottoms, especially of the former, and distances—we cave in to Rio Negro; but in compactness and variety and opportunity, we are infinitely better favoured. Then as to the uses made of their advantages by the two settlements, it was intended to compare their several statistics, but the space already devonred precludes the idea, so it must be reserved as a revelation some other day. As to the Limay, we could people that territory from where we are by an off-shoot of young fellows, supposing "sufficient inducement offered." leaving the parent hive to swarm again.

Now, Sir, let this be a warning to roaming correspondents and editors, "to let well alone." We are here a crowd of people battling with new-homes difficulties; sometimes we are up and elated, at other times down, and groaning; often vexed with accounts of us, pro and con, frequently perplexed how to describe ourselves to one another or strangers. And is this not the case all the world over? Why make a fuss about us?

EDITOR'S TABLE.

Lots of news from Europe will be found in another column. France and China are at peace and at war at the same time. China is pouring troops into Tonkin, and France is sending ship after ship with reinforcements. It is hard to say what the upshot may be. The European papers have suddenly abandoned any allusion to the possibility of a war in the Spring. This is a very dangerous sign. Poor Mario is dead. Peace to the best and handsomest Elvino and Almaviva the lyric stage has ever seen, or, probably, ever will see.

The approaching departure of the Provincial Government for La Plata is the topic of the hour. Where the employees are to find housing for selves and families in all the shanties and sheebangs we saw on Sunday last we know not. The sooner the wooden houses arrive from Europe the better.

Three cheers for the Lord Mayor! His Lordship has written to the Consejo Deliberante suggesting that, in view of the report on wooden pavement sent out by the Argentine Minister in London, all further stone-paving be abandoned in this city, and wood be definitely adopted. The Public unanimously endorses this proposal. No matter what contracts have been made or proposed for stone pavement, they should be cancelled, even at some cost. There is no possibility of questioning the evidence, which Mr Garcia has sent out, that wood is the one durable, healthy and economic pavement that civilized cities will tolerate for the future. Buenos Aires has the evidence before its own eyes in Calle Suipacha.

The reception of the Argentine Minister at the Montevidean Government House on Monday was the grandest thing of the kind ever seen there—more like a royal pageant than anything else. The Minister and suite dashed through the streets in four open carriages, the President's Hussar Guides galloping in front and rear, while two field-officers with drawn swords pranced along at each door of the Minister's carriage. The scene at the Government House was dazzling. President Santos fairly blazed with medals, crosses, aiguelettes and other military trappings. The band of the Admiral Brown landed and serenaded the Minister at the Argentine Legation.

Mr. Latham's Company arrived yesterday from Rosario, and — evening will re-appear in Dicken— play the "Cricket on The town is fairly all and a good house ma expected. Those who piece announced to meet with a drama full of terrible escapes and high flavored situations, will be as much disappointed as those who imagine the work to be similar to "Our Boys" with regard to quick satirical humour. The "Cricket on the Hearth" is a pleasant pretty little three act play, treating of a poor peaceful dramatic story, only disturbed by a passing cloud which proves to be the main interest in the story and forerunner of happiness for the personages represented.

The display of Electric Light at Messrs. Cassells,' in Calle Maipu, on Monday night was very good. Hundreds collected in the street to look at it, and said "que lastima!" when it was put out.

What a boon! The railway companies have entered into an agreement to have all their clocks set to the same time. It is about time for them to think of it.

Organ-grinding is considered to be a public nuisance in every properly regulated community, yet here it is tolerated. On the south side of the Recoba Vieja there is a peep-show organ that has not stopped grinding, day and night, for the last ten years. Some of the residents have gone mad, others are dead and buried through the infliction, and the miserable survivors have at last petitioned the Lord Mayor to have pity on them and stop that organ. We endorse the petition with our very best "Times" pen—only to be had at William Mackern's.

The *Eco de Cordoba* gives some idea of how the sugar industry is spreading in the Interior. One day last week a train of 20 trucks left Cordoba for Tucuman, and each truck contained six tons of sugar machinery, for Tucuman, Santiago, and Salta. Salt—a is going in for its rival, or rather colleague, Sugar. Hams cured with sugar are the best; whilst in the U. S. they have been known to sweeten mines for the public gullet by "salting" them.

Captain Manton has returned from Rosario. His Siemens 'Telefono Portatil' has proved a great success up there—1500 subscribers. The telephone gives great satisfaction.

The quickest run on record from Asuncion to Rosario was the last, by the Rio Uruguay, Captain Bisso, in 48 hours, calling at all the ports.

The *Lancet* of London says that reading library books is a most dangerous thing, as they pass through so many hands and spread all kinds of infect— diseases. Whatever the *Lancet* s must be true.

We beg to salute Mr. Carlos Casad the great Santa Fe Railway pione who arrived yesterday from R

We thank Mr. Carvalho for t portrait in his collection of A Celebrities—the late Dr. Monte Oca, a splendid likeness, and artis cally equal in every way to the seve that preceded it.

The old Plaza Once, where wool, skins, cows'-heads and bullock cart formerly reigned supreme, is rapidly assuming a garden-like aspect. When finished, it will be one of the pretties promenades in town.

Another instance of the barbarities attending the law regarding accidents, or rather we think its application by stupid and obstinate 'functionaries,' occurred at the Resguardo (Passenger Mole), on Monday. Two sailors, belonging to a large English ship, fell into the hold, a depth of about 24 feet, and coming in contact with the iron cargo, sustained severe and it is feared fatal injuries. They were at once put into a boat and sent ashore as quick as possible, but the journey from t Roads, two hours in an open boat very der a broiling sun, severely tried sufferers. Arriving at the mole, t shipmates proceeded to carry t to the British Hospital, but they w stopped at the Resguardo by the gu and compelled to lay the injured men in the shed. In spite of the protestations of the Captain, backed up by the agents, persons of great influence here, no one was allowed to go near the sufferers or to assist them in any way until the Port doctor and "la autoridad" arrived on the scene, which happened only after two weary hours of waiting. The treatment then received was of the most ungentle kind. By the time the Hospital was reached the life of one man was despaired of. We call the attention of the Port Captain and of the British Consul to these discreditable actions.

The Health Board has ordered all the 'boticas' in town to be inspected by two doctors, as many of these establishments are by no means up the mark.

The new baths in Calle Piedad w opened yesterday. They are well enou fitted up, but the price for a bath outrageously high—half a gold dolla Five paper dollars, gentlemen, woul be nearer the thing.

Commissary Suffern has written important letter to the Chief of Poli on that miserable class the slang nam of which is "Attorante,"—the dreg of society, who sleep in the open air live on garbage from the "vasura" boxes, and are supremely happy if they can get dead drunk every day. Mr. S proposes that they should be made to work, or at least given a chance to do so. His idea is a good and humane one, but there are vast difficulties in the way of carrying it out.

The recent illness of the Emperor Brazil was intense fever and congestion of the liver, but his Majesty is now all right again.

The new organization plan for the Head Quarters Staff of the Army was issued yesterday. It seems complete in all respects.

The new Chief of Police in Rosario has begun well. Before he was a week in office he knock the head for eve Chief! Would that here might follow ample!

Preziosi and a co loaves of the best appear at the Politeam in a few minutes and "mashers" in town are in ex of delight.

Hermann, the Wizard, has graphed that he is coming here a to-morrow, to perform in the Nation Theatre and then go up to P Tucuman and Cordoba.

ON 'CHANGE.

January 8th, 1884.

Cedulas A	100⅜
Cedulas E	87⅞
Cedulas F	85⅛
National Bank Shares....	128

Cedulas Series A suffered a sharp fall today, and were sold for French account. It is really remarkable to see the only 8 o/o stock we have in the market fall 1 o/o in one day and offering so cheap.
Series E opened at 87½, fell to 87⅛, and closed a little firmer at 87¼; for the end of the month the stock closed buyers at 88, having been done during the day at 87½.
Bank Shares looked this morning as if the bottom were out of the tub, opening at 128½, selling at 128, and closing at 128 slightly firmer. The King turned the market by entering and buying freely at 128. For the end of February sales were made, first at 129½, then at 130, then down again to 129½, and finally closed at 129½. Several outsiders entered the market to-day and operated both ways. There is now much stir on 'Change, and it reminds one of old times to see the busy, anxious look of men around the ring.
Exchange was done by one house to-day at 5.05, only small amount, and in sterling at 47½.
The sales at the ring during official hours were:—

Cedulas—
For cash A 35,000 at 100¾-1-⅞
For cash E 44,800 at 87⅞-⅞
For Jan. 9th E 5,000 at 87⅞
For Jan. 12th E 5,000 at 87⅞
For Jan. 31st E 215,000 at 87⅞-⅞-⅞-88
For cash F 7,600 at 85⅞
For Jan. 9th F 25,000 at 85⅝
For Jan. 31st F 10,000 at 85⅞
Sales, 337,400.
National Bank Shares—
For Jan. 31st 3,900 at 128¼-¼-⅜-½-128-½ to 128½-½-½-128
For Feb. 29th 1,200 at 129¾-130-129¾-½
Sales, 5,100
The amortization of National Bonds took place to-day; 1863 loan gave as follows:—

C. Vila.....	2,700	..	92.97
"	5,000	..	94.87
G. Pratje....	1,900	..	91.40
"	10,000	..	92.75
"	13,000	..	92.60
"	2,100	..	93.90
"	60,300	..	91.85
"	60,000	..	89.47
D. Portes....	20,000	..	91.75
"	20,500	..	92.80
M. Lynch....	35,000	..	92.00
Loan of 1876—			
J. Pratje.....	7,000	..	89.97

It will be observed the great disparity that existed amongst the views of the bidders, many evidently believing that the amortization would be much under that of previous quarters. This feeling amongst bondholders may have been caused by the great fall in the price of stocks on the Bolsa—a fall which was evidently premeditated.
The sale of a fine site, with large old buildings thereon, in front of the Lanus Deposits, is reported, 70 x 60. The price realized gave 99⅔ per vara, which is a very spendid figure. The property belonged to Mr. C. Ackerley.

Mr. E. Daniel was welcomed on 'Change on his return from Europe. He was away exactly four months to-day, and spent two months in London and Paris, where he says the greatest ignorance about the River Plate still exists. People there know nothing of the Plate.
Mr. Spencer requests us to correct the statement that there are only 200 men at work at the Ensenada canal, he says there are over 1000 men at work there.
With much pleasure we state that Mr. Jaime Cibils who left this in such poor health has arrived in London and is very much improved by the voyage.
The foundations for the new Plaza Armas and Barracks in the South end of the town were begun to-day.
Letters were received to-day from San Vicente written by passengers on Stirling Castle, they speak in the highest terms of the accommodations, etc., Dr. Emilio Gimenez kept the table in a roar the whole voyage except when he was sea sick.
The following statement of the Public Debt of Entre Rios, will be read with much interest by merchants and others. It will be seen how very fast these Provinces of few resources get into debt, and it is to be regretted that so many parties, both at home and abroad, are willing to increase those facilities. The subjoined statement is official, being extracted from the Governor's Message recently delivered on the opening of the Entre Riano Chambers. Public debts of Entre Rios on 31st Oct. 1883:—

Empréstito de Londres	$633,986
Murrieta y Compania..	386,871 96

Colonel Olascoaga, who left last month in the Villarino, for Patagones, has discovered coal-beds on the banks of the Nauquen, and now takes a staff of workmen to explore the country thereabouts. He states that the Indians used this coal, and at their 'toldos' are to be found the ashes and cinders. It would be a new departure for the far South if Col. Olascoaga should succeed.
Mr. Davidson, who has just returned from a Western tour of excursion to his camps out there, reports most favourably on all those camps. He has 20 square leagues out there which he purposes next year to begin to stock. He leaves in a few days for London; as he walks along Oxford-street he will meet with few who are as large land-owners as himself, in fact; his estancia beyond Italó will be regarded as a territory by his English friends. We congratulate him on his great good judgment in investing in River Plate estancia lands, possibly the best investment to-day to be had in the world. Mr. O'Dwyer who has lands adjoinimg his, has also returned and pleased with these Western camps.
Business could not be brisker in the Boca. On last Sunday the pailebost Belgrano took fire and suffered severely before the flames could be got under, which was effected by sinking her. Her hold and masts were badly damaged. There was only one sailor on board when the fire took place, and is in prison, pending inquiries as to the cause of the fire. The vessel belongs to Sr Cinollo. The river is so crowded with craft of all descriptions that vessels experience great difficulties in discharging their cargoes. The Myrtle Branch, the largest steamer that has yet entered the Boca cleared from there yesterday morning, and got out with the same facility as the Villarino or other smaller steamers. The arrivals during the last two days have been: English barque Christina, towed in with a cargo of timber, consigned to Shaw Bros: American lugger Henry Warner, towed in with timber cargo, consigned to C. S. Roberts: Italian barque Modesto, also towed in, and the Government steamer Union from Gualeguay with some passengers and general cargo, besides 23 coasting vessels with general cargoes. The departures were: English barque Condor and Italian barque Fillippo in ballast for the Outer Roads, where they will probably load, and 19 craft for the river ports with general cargoes.
On the 3rd inst., the new locomotive Bolivia, of the Central Northern, made her first trip running from Cordoba to Tucuman with a train of 18 open waggons loaded with wheat; the weight of same being about 300 tons. Next week two more new locomotives will be put on service.
Two sailors, named James Brown and C. Groves, belonging to the English frigate County of Aberdeen, at present anchored in the Outer Roads, and discharging a cargo of coal, were seriously injured yesterday by an empty coal basket falling on them, tumbling both of them into the hold. They were immediately landed and sent to the British Hospital.
A telegram from Ajó reports the stranding of the 'patacho' Veloce bound to Patagones, on the bank off Cape San Antonio. They are awaiting favourable weather to send her help. The agent here is Santiago Guianello.
The Sub-Prefect of Concordia, reports the sinking of the 'pailebot' Golondrina in that port, due to the falling of a rail which made a hole in her below the water line.
At afterhours the shares of the Nat. Bank gave way with a KRACH, and one thousand shares were sold in a moment at 127, and for the end of February 500 sold at 128⅜. All sorts of speculative rumours were afloat about the parties who have now entered as sellers. One large holder, who it is known has sent his shares to England, was reported to be selling heavily, meanwhile outsiders and parties who are not in the speculation, are of opinion that the present stampede in the share market has been made by the bulls themselves who drive the market down for an object. The bank, we hear, shows 15 per cent gains for the year, pays a handsome dividend and puts by a reserve fund of one million pats. Cedulas ruled firmer at afterhours and purchases by outsiders were made at 88⅜.
Exchange ruled firmer, and the scare of yesterday appears to be passed. One house offered 2 millions francs at 5.05, but there are no takers, bills at 5.06, and 5.07 were offered, and something done at the latter rate also at 47⅜ in sterling. It is really incredible the quantity of exchange in the market, which also means the large amounts of money in the market. Produce is now flowing in very fast, and business was never brisker. There was nothing that we could hear of done on Montevideo to-day, but bills were done yesterday at 3½.
We hear that the English Bank of the River Plate has gold on the way out, and that the Provincial Bank holds in its vaults 2 millions gold Argentinos.
The Hamburg steamer Buenos Aires sails on 10th and takes a cargo of bales; she calls at Brazil to fill up. The Petropolis sails on 15th inst with a full cargo direct from here to Hamburg. It is really most remarkable how the trade between Hamburg and the Plate has of late years grown. This Hamburg line of steamers began with 6 steamers, and now it has 16 steamers and is going on building. The Petropolis is now up the river loading at Rosario, San Nicolas and San Pedro.
Much complaint was made by the brokers that the members of the Roads and Bridges Bonds drawn to-day for amortization, were not at 4 o'clock this afternoon posted on the Bolsa.
With pleasure we announce that the Government named Mr John Leonard, of Dublin, to be Argentine Consul in that city. Mr. Leonard is brother-in-law of Mr Hansen, sub.-Secretary of Hacienda, and is a gentleman who will take some intsrest in Argentine affairs. Not so

78——ALSINA——78
El Miercoles 16 de Enero 1884
A las 2 p.m.

Remataremos a la mas alta postura y condiciones que se estipularan mas abajo, por orden y terminante de su propietario, 65,000 hectareas de campos ubicados en la Seccion 2ª de los Territorios Nacionales.

Los numeros que se ofrecen en venta son el 1, 2, 7, y 8 de la letra B- la mitad Sud del numero 23 y el numero 24 de la letra D, todos de la seccion segunda y el numero 3 de la letra A, seccion tercera Territorio Nacional.

Los lotes 3, 4, 7 y 8 forman un cuadrado de 16 leguas, situado ventajosamente leguas al Oeste de Trenque-Lauquen.

Telegrafo hace tiempo que nos hallamos comunicacion diaria con este punto de importancia.

Diligencia de Vallee cruza estos campos en su trayecto lejano al pueblo Victorica que se halla 35 leguas mas afuera.

Faltaba solo la locomotora para trasportarnos en dos dias de la capital de la nacion a la civilizacion naciente pero vigorosa de la frontera.

Felizmente esto se ha conseguido.

Los trabajos del ferro-carril del Oeste se han dividido en tres secciones.

La primera al 9 de Julio se ha abierta ya al servicio publico.

La segunda que va a Las Mellizas ya se ha empezado, y una vez terminado esto se emprenderan los trabajos de la tercera seccion que nos llevara a Trenque-Lauquen.

Dentro de dos años podemos pues, asegurar que estos campos estaran cuando mas a 48 horas de la ciudad de Buenos Aires.

Este solo hecho tripicara el valor de todas las tierras en esa direccion.

En cuanto a la calidad de la tierra de este lote de 16 leguas, nos referiremos a los informes oficiales del agrimensor Sr Maqueda quien los mensuro y amojono.

Dice el—La calidad de estos campos es buena, siendo abundante en sus aguadas y pastos tiernos.

Hay tambien tres bosques de consideracion, de algurrobo y calden, cuya utilidad y riqueza es indisputable.

En toda la estension del campo hay 14 lagunas casi todas ellas de caracter permanente. Una de ellas de agua dulce mide 700 metros de largo por 400 metros de ancho con un buen monte a su alrededor.

Hay varios cañadones con pastos tiernos para ovejas.

Fuera de estas importantisimas aguadas dulces hay varios ojos de agua y jagueles indicos.

Los linderos son los Sres Unzue, Del Carril, Drysdale, Irigoyen y otros de igual importancia.

El lote de 10 leguas se haya igualmente bien situado.

Se compone de los numeros 3, letra A. de la seccion tercera la mitad Snd del numero 23 y el numero 24 de la letra D. seccion segunda territorio nacional.

A 4 leguas sofamente del gran Establecimiento poblado del Señor Anchorena y a corta distancia de la estancia alambrada de D Saturnino Unzue, y sobre el camino precisamente que pasa de Guamini, Carhué a General Acha, se halla en contacto diario con los establecimientos mas importantes alrededor de Bahia Blanca.

Su proximidad relativa a este gran puerto y el hecho importante de estar sobre la via que pasara de Bahia Blanca a Mercedes, lo coloca en una position muy ventajosa para el poblador que prefiere una buena vecindad a la seguridad problematica de los campos mas lejos.

Sobre la bondad de estos campos hablaran los agrimensores Maqueda y Dillon, de cuyos informes oficiales extractamos lo siguiente :—

Linea Norte—Se encuentran vestigios de haber sido una gran tolderia de indios, campo ondulado, alto y descubierto, hay un buen monte de Chañares y Caldenes.

Linea Oeste—Campo accidentado abundando la gramilla en los montes.

Linea Este—Montes de caldenes, terreno poco accidentado con lagunas.

Linea Sud—Hay montes, cañadas de agua dulce, y muchos caminos indios.

Abundan los pastos puna dulce, trevol, gramilla colorada cerca del angulo S O hay vestigios de Tolderias de indios donde convergen los distintos caminos cruzados por las lineas. Hay gran cantidad de jagüeles de agua dulce. Este punto es conocido por el nombre de "Ranquilco."

Por folletos y planos de estos campos, ocurrir a nuestra casa, Alsina 78.

78——ALSINA——78
El Martes 22 de Enero de 1884
A las 2 en punto de la tarde

Venderemos a la mas alta postura y a los plazos arriba indicados 32 leguas de esplendido campo, ya celebre por sus ricos pastos tiernos, sus abundantes aguadas y la fertilidad de sus tierras.

Los numeros en venta son el 11, 19, 20, 21 y 22 de la letra A, y el 1, 2 y 9 de la letra D, Seccion 8, Territorio Nacional.

Todavia existen alli los vestigios de las Tolderias de los Ranqueles, sus rancherias, sus corrales y sus jagüeles de riquisima agua.

Estos campos y los inmediatos a la Ciudad de Buenos Aires, son los verdaderos

Campos de pasto tierno

Los primeros por haber estado en el poder tranquilo de los Indios por mas de un siglo, y los otros por haber sido ocupados por los cristianos.

Los campos de pastos duros son los de la zona intermediaria, donde ni el indio ni el cristiano se aventuraban a permanecer por temerse mutuamente.

Solo asi puede racionalmente esplicarse el hecho notable de que en la seccion octava se encuentran pastos tiernos iguales a los campos de adentro [illegible] hoy pocos 3,000,000 la gua.

El informe del agrimensor Alsina sobre os campos dice textualmente asi :

Estos campos que fueron ocupados por los ios Ranqueles se encuentran respecto de dad y cantidad de pastos, montes, piso, etc, identicas condiciones que los campos de buco y Poitague, cuya superioridad es pumente conocida."

dice el agrimensor Pico que los arboles de cion son inmensos, entre ellos los hay den cuatro y media varas de circunfeen su tronco principal abarcando con nas un diametro termino medio de 3.

esar que algunos colocan el Pueblo Vicza, ya una poblacion de 1500 almas, en el lote 23, los propietarios de estos campos tienen datos particulares de personas de esa localidad que les permiten declarar que se encuentra en el 22 el lote lindero, o sea en el corazon de estos campos.

Fuera de una infinidad de jagueles de agua riquisima el campo tiene las lagunas siguientes—Poitague, Aucamelué, Lui Carreta, Tirtra Trigoin, Echoué, Quillal Lauquen, ll, Antiqueo, Guada y varias otras de nombre.

os y folletos ocurrir a nuestra casa, Taxa

SE REMATARAN
En nuestra casa
78——ALSINA——78
El Jueves 10 de Enero de 1884
A las 2 p.m.

Remataremos a la mas alta postura y condiciones que se estipularan mas adelante, por cuenta y orden de su propietario.

3000 cuadras cuadradas campo flor, reputado como de los mejores de la Provincia y que en malos años como el que ha pasado ha mantenido 25,000 ovejas en legua y han tenido buen aumento.

Basta saber y recordar que los Sajones fueron fundados por el Sr. D. Juan Harratt uno de los primeros y mas inteligentes criadores de la Raza Merina, quien seguramente no habria elejido este campo, hace lo menos 35 o 40 años, si no lo hubiese reconocido como sobresaliente por su objeto.

Las 3000 cuadros seran divididas en lotes pequeños, para ponerlos asi al alcance de todos los bolsillos, dando al mismo tiempo opcion al primer comprador a tomar uno o mas lotes.

Creemos enteramente escusado llamar la atencion de los que se dedican a negocios de campo, sobre la calidad de la tierra y de los pastos, una y otro son de primer orden y pueden destinarse tando a la ganaderia como a la agricultura, sin temor de ninguna clase ; ademas de esas ventajos tiene otra muy importante y es la proximidad a la capital, de la capital, de la cual solo distan estos campos un poco mas de 14 leguas, y 5 leguas de la estacion Jeppener, Ferro Carril del Sud.

Una vez terminados los ramales que van a la Plata y Puerto de la Ensenada las facilidades para el embarque de todos los productos de este partido contribuiran un poco a aumentar el valor de esos campos.

Las personas que deseen inspeccionar el campo pueden dirijirse a Jeppener donde sale un coche correo los Martes y Sabados, y que los deja en la Estancia Los Sajones y con previo avieo habra alli un carruage especial.

Las condiciones de venta son sin base y al mejor precio.

Los lotes seran mensurados y amojonados una vez escrituradas.

Por planos detallados ocurrn a nuestro escritorio Alsina 78.

Campo Flor
En la Seccion XVII
Conocido por
Fu-lo o Las 3 Lagunas
Lindando con los grandes establecimientos de los Señores
Drabble, Duggan Hnos y otros
Y a 18 leguas del pueblo Lincoln
Sin Base Sin Base
En nuestra casa
78——ALSINA——78
El Miercoles 16 del Enero
A las 2 de la tarde

Remataremos a la mas alta postura y condiciones que se estipulan mas abajo, por division de condominio entre los Señores Newberry y A. S. MacNally, por ausentarse este ultimo del pais.

El campo arriba mencionado, compuesto de 7887 hectareas o sean cerca de 3 leguas, ubicadas en la seccion XVII de la Provincia de Buenos Aires.

Estos campos son conocidos por el nombre de Fu-lo o Las 3 Lagunas, y estan rodeados de grandes estancias, propiedad de los Señores Drabble hnos, Duggan hnos, Media Luna, Juan Brown, Ricketts y Compania Pastoril Argentina y muchos otros ; distan pocas leguas de Lavalle y 18 leguas mas o menos del pueblo Lincoln.

El Ferro Carril Trasandino queda muy inmediato y el Ferro Carril de las Mellizas a Trenque-Lauquen, que estara terminado en breve tiempo, pasara muy cerca tambien.

El campo realmente es flor, teniendo abundantes pastos tiernos, cebadilla, alberjilla, cola de zorro y otros gramineos como para ovejas, tiene mas de 40 centimetros de tierra vegetal y abundantes aguadas permanentes.

Las condiciones para la venta son sin base y el comprador puede tomar a su cargo cuatro letras que adeuda el campo, cada una de 44,000 m/c, pagadero a 24 de Diciembre de 1884 la primera.

Las personas que quieran inspeccionar o mandar ver el campo, tienen diligencias que sale de Chivilcoy los dias 1, 7, 11, 13, 19 y 25 de cada mes, desde Chivilcoy a Media Luna y de alli encontraran caballo o carruages que los llevara hasta el mismo campo.

Por mas informes pueden ocurrir a nuestra casa Alsina 78.

188 dl9 j16

POR LOS MISMOS
En la Estacion Glew
De un buen lote
De vacas lecheras mansas
Media Sangre ¾ y ⅞ Durham
60 mestizos Durham, buenas lecheras con crias chicas, algunas de ellas hijas del toro puro importado San Martin y servidas todas por este y por el magnifico toro puro, tambien importado, Grand Prince.
El Domingo 20 de Enero 1884
A las 1½ del dia.

Remataremos a la mas alta postura y dinero de contado, los animales espresados, procedentes del establecimiento Villa Mariana, pertenecientes al Sr Cambaceres.

Las referidas vacas se encuentran en los potreros de la Estancia Glew, donde pueden ser inspeccionadas por los interesados.

El dia del remate estaran a la vista los toros San Martin y Gran Prince.

Nota—El tren que sale de la Estacion Constitucion a las 10.45 llega a Glew a las 11.55, y regresa a la ciudad a las 2 p.m.

Un esplendido lote de Campo
De 6½ leguas cuadradas
SITUADO
En la 1ª Seccion
De Campos Nacionales
Y 2½ leguas del fortin Gainza
Sobre la misma linea de fortines
Y muy proximo
Al Ferro Carril Trasandino
LINDANDO
Con las grandes estancias de los Sres. Emilio Bunge, Zemborain hnos,, Salas y Cernadas y otros.
SIN BASE
Condiciones Ventajosas.
En nuestra casa
78——ALSINA——78
El Viernes 25 de Enero 1884
A las 2 en punto

Remataremos a la mas alta postura y condiciones que se estipularan en el acto del remate

46243 hectareas 7 areas y 67 centiareas igual a seis leguas, mas 4,972/10,000 de otra, situadas en el mapa del Departamento de Ingenieros de la Nacion con los numeros 23 y mitad de 18 bajo el nombre de Laura Bunge de Pacheco.

Linda al campo con establecimientos de gran importancia como los de los Sres. Emilio Y Bunge, Zomborain Hnos, Salas, Cernadas, Carlos S Guerrero, Chas e hijos, Rosa Demaria, del Valle, (Italo) Drabble Hnos., y varios otros. Como se ve este campo esta situado en medio de Establecimientos muy importantes ya formados y otros en formacion.

La galera que va a Gainza y de alli a lo del Sr Bunge o Italo pasa muy cerca de esta campo y los interesados pueden inspeccionarlo con toda comodidad.

Otra ventaja importantisima es la proximidad de la gran linea ferrea Trasandina que pasa a muy corta distancia de alli y que tendra a no dudarlo una Estacion ya sea en Gainza que solo dista dos y media leguas de este campo, o otro punto mas proximo de la gran Colonia Irlandesa, es sabido que se estiende de aquel lado, pues las recientes ventas hechas por los Sres. Selez y Cernadas, son en su mayor parte o Estancieros de esa nacionalidad, que como se sabe llevan consigo el bienestar adelanto y aumento en la fortuna.

La condiciones para la venta son sin base y el pago se hara una tercera parte al contado y el resto a tres y seis meses de plazo sin interes y pagare hipotecario sobre el mismo campo.

Por planos y mas informes ocurran a nuestra casa alsina.

A las 2 de la tarde
En nuestra casa
78——ALSINA——78

Las tierras que se ofrecen en venta, se encuentran ubicadas en la Provincia de Santiago del Estero sobre el deslinde con la de Santa Fe.

Su situacion es inmejorable y dificilmente podria ofrecerse a la venta una estension de tierra que reuna las condiciones de las que van a rematarse. Estan situadas al norte de la Provincia de Santa Fe y a ocho o diez leguas de las florecientes colonias de esta Provincia y a muy poca distancia de los importantes establecimientos de los Srs. Ramayon y Escalada, Lezama y otros.

Dentro de muy breve tiempo las colonias invadiran estos campos que por su fereacidad y situacion se prestan cual ningunos otros a la agricultura.

La calidad de estas tierras es excelente. Estan cubiertas de una capa de tierra vegetal de sesenta a ochenta centimetros y en algunas partes el espesor de estas capas pasa de un metro. Las aguas subterraneas se encuentran a cuatro, cinco y seis metros de profundidad, y en todos los jagueles que se han hecho hasta ahora en esta region, se ha encontrado agua dulce. Abundan ademas las aguas superficiales en pequeños arroyos y lagunas.

Estos campos son parte de los comprados ahora muchos años por D. Adolfo E. Carranza al Gobierno de Santiago del Estero y cuya mensura y plano fueron levantados en los años 1859 y 1860 por el ex-Ingeniero Nacional D. Juan Hildebrano.

En el año de 1873, a solicitud de sus propietarios entonces el Dr. D. B. de Irigoyen, D. Alejo Arocena, D. Anacarsis Lanus, D. Amrosio Lezica y Don Adolfo E. Carranza, fueron prolijamente mensurados y amojonados suertes de cuatro y seis leguas por el Agrimensor Publico D. Valentin Virasoro, mensura y division que fue ordenada y aprobada por el Gobierno de Santiago del Estero.

El espediente original se encuentra archivado en el Ministerio de Gobierno de la Provincia de Santiago, pero un testimonio publico de este espediente con todas sus ocupaciones, esta depositado en esta ciudad en la Oficina de Registro del Escribano D. Ramon F. Lagos, (Pasage Roverano, escritorio num. 34 altos) donde los interesados pueden inspecionarlo.

Las ciento sesenta y siete y media leguas que se ofrecen en venta, estan divididas en treinta y una suertes de cuatro leguas, cinco de seis leguas, dos de cuatro leguas y una fraccion, una de tres leguas y media y otra de una legua y media.

Todas estas suertes estan perfectamente amojonadas, teniendo cada mojon gravados los numeros de las suertes a que corresponde. El agrimensor señor Virasoro ha adjuntado en su diligencia de mensur los datos principales de la naturaleza de cada una de estas suertes y a pedido de uno de los interesados dio un informe especial sobre las tierras que van venderse que en su mensura estan señaladas y divididas en tres lotes con los numeros 1, 2 y 4 de la seccion del Este.

No publicamos aqui esos informes por su estension, pero los interesados los encontraran en el folleto que hemos publicado y puede obtenerse en nuestra casa Alsina 78.

Esos informes son muy minuciosos y dan una idea exacta de la calidad de estos campos y ellos fueron pasados a los Sres Bates, Stokes y Ca. por cuenta de quienes el agrimensor Sr Virasoro practico la mensura.

Desde la cindad de Santa Fe a estos campos hay solo treinta y dos leguas. Desde el lote 100 al pueblo de Reconquista, centro de colonias y establecimientos importantes hay veinte y tres leguas.

Ademas del informe del agrimensor Sr Virasoro y del que hemos transcrito los parrafos que de refieren a la estension de tierras que ofrecemos en venta, pueden los interesados consultar el espediente de mensura que se encuentra en poder del escribano Sr Lagos, donde encontraran datos sobre cada una de las suertes.

La rigueza de estas tierras por su feracidad sus ricas aguadas y sus montes esta fuera de toda ponderacion.

Podemos asegurar que antes de dos o tres años estara colonizada la mayor parte de esta zona, pues las colonias de Santa Fe, como puede verse en el mapa adjuuto, avanza mas rapidamente hacia ese lado, que es donde estan las tierras mas ricas para la agricultura.

Contribuira poderosamente para el desarrollo de esas colonias la proximidad del puerto de Reconquista, sobre el Rio Parana, como tambien el Ferro Carril que se propone construir la empresa de los Sres. Murrieta y Ca.

Es publico y notorio que estos señores acaban de enviar a Santa Fe al Señor Don F. E. Harman, distinguido agronomo ingles, con el objeto de estudiar esas tierras que van incontinenti a ser colonizadas en gran escala.

Estan depositados en el Banco de Londres y Rio de la Plata los fondos necesarios, no solo para los gastos preliminares, sino aquellos que se requieren para la instalacion de varios grandes establecimientos de campo.

En vista de estos antecedentes, es indudable, que antes de muy poco tiempo, esas tierras valdran de 20 a 30 mil pesos fuertes la legua, precio que hoy se obtiene facilmente en las ventas de las tierras proximas a estas para colonias.

Por planos y folletos ocurrir a nuestra casa Alsina 78.

VENTA PARTICULAR

Liquidacion de un contrato de arrendamiento y una Sociedad.

Se venden, particularmente, las majadas del Establecimiento denominado Rincon de Ajo, en el Partido del mismo nombre, pertenecientes a los Sres. Musgrave, O'Grady & Co. La venta se hace para desocupar el campo y liquidar la Sociedad.

Las majadas son diez, con un total de veinte mil cabezas mas o menos.

Hay una majada de dos a dos mil quinientas Lincoln, de primera clase, servida siempre por carneros importados.

Otra majada de dos mil mestizos Lincoln con su dotacion de padres.

Y otras dos majadas servidas por padres Lincoln.

El resto es de cuatro majadas Merinas, y dos invernadas de capones en su mayor parte, y una proporcion de ovejas.

Todas las majadas tienen su dotacion de padres

Las majadas son estacionadas debiendo principiar la paricion el 25 de Marzo.

Se vende en un solo lote o en majadas
A eleccion del Comprador

Siendo tan conocida la lana de estas ovejas por su calidad especial y el alto precio obtenido siempre en plaza, es inutil decir mas en favor de ellas que pertenecen a la sociedad arriba mencionada.

HACIENDA VACUNA
Cinco Mil al corte
TODA MESTIZA
Con su dotacion de padres finos Durham
La Hacienda esta gorda
Con buena novillada

Es notorio que las haciendas de los Sres. MUSGRAVE, O'GRADY & Co., son de las mejores que hay en la Provincia, y se venden unicamente para liquidar.

En cuanto a Lanar y Vacuno es una oportunidad escepcional para que los estancieros se hagan de haciendas especiales.

El comprador puede dejar la hacienda en el campo hasta el

10 de Febrero de 1884

sin pagar arrendamiento.

Para tratar ocurrir al mismo Establecimiento a Don JORGE EVANS, o en Buenos Aires a los Sres. M. DUGGAN y Hno.,

GREAT FIRE
IN
GLASGOW.

Patent "Rapid" Fire-Engine.

R. & J. JARVIE,

MANUFACTURERS,

19 Stobcross Street,

GLASGOW.

Testimonial from Alexr. Sinclair, Esq., Manager, *Herald* Office, Glasgow

Office of *The Glasgow Herald*,
Glasgow, 10th Nov., 1883

Gentlemen,

In connection with the Great Fire in Buchanau Street and Mitchell Street which besieged our premises on Saturday night last, I can say without reserve that your handy "Rapid" Fire-Engines, of which we have seven, did most invaluable service in the hands of our men by preventing the fire catching and in extinguishing it where it was burning. At one of the most critical moments, when the flames had seized upon one of our side rooms and were about to spread to the heart of the building, one of your Machines was applied to the burning parts with the most effectual and gratifying result.

I may add that had one or two of these Extinguishers been upon the roof of our neighbour, Mr Jenkins, the probability was that his building would have been saved, and we would thereby have been preserved from the extreme jeopardy we were in.

Yours truly,
(Signed), ALEXANDER SINCLAIR.

To Messrs. R & J Jarvie,
19 Stobcross Street,
Glasgow.

Extract from *Chambers's Journal*, 26th May, 1883.

"Knowing as we do that prompt measures taken at the first may save the premises, we have introduced into those of this Journal half-a-dozen handy little portable Fire-Extinguishers, termed the 'Rapid,' which seem all that can be desired. They are manufactured by R & J Jarvie, 19 Stobeross Street, Glasgow.

Pildoras Holloway.

Las virtudes de esta admirable medicina son especialmente eficaces para expulsar de la Sangre toda impureza. En los casos de debilidad, ella es incomparable, al paso que cura radicalmente las Indigestiones, y los desordenes generales del Higado, del Estomago, y de los Intestinos, restableciendose, como por encanto, el vigor y la salud normal, dichas Pildoras remueven asimismo las dolencias que suelen adtijir a las Mugeres al llegar estas a la edad critica.

Unguente Holloway.

Este incomparable Balsamo sana los Males de Piernas y de Pecho, las Llagas Antiguas, y aun esas Ulceras cuyo orijen no conviene mencionar en un anuncio publico. Para todas las Erupciones cutaneas no hay remedio igual al Unguente Holloway, al que millares deben la salvacion, tanto de sus Brazos y Piernas como de su existencia.

Antes de comprar, examineso con mucha cautela el Rotulo en el Bote o la Caja, para cerciorarse si esta la direccion de 533 Oxford Street, London, pues si no esta, entonces se trata de perpetrar un descarado engaño.

☞ Se invitan a las personas que sean defraudadas por los vendedores que expenden 'Las Pildoras y el Uguento de Holloway' falsificadas para que se sirvan al comunicarmie los pormenores, e inmediatamente para formalizar procesos legales contra los Ofensores, y recompensare liberalmente a los Delatores por el trabajo que se tomen, comprometiendome a que no haya trascendencia de sus nombres.

Junior	8 "	"
Senior	10 "	"

Extra Branches 2 to 4 $m/n per month
Day Boarding 15 to 20 " "
Board 30 to 40 " "

Reduction of fees for more than t ree pupils belonging to the same family.

Mr Hutton requests those who intend to enrol to do so at once, if possible not later than January 15th, to facilitate arrangements. After that date an entrance fee will be charged.

British Academy

Robert Bird

Director

253-Calle Chile-253

The undersigned begs respectfully to inform parents and the public generally that, on the 15th January 1884, he will reopen his Academy, at the above address, and will use every effort to merit a repetition of former patronage.

The boarders will receive the immediate attention of the Director and Mrs Bird, who will spare no pains in order to secure their moral and intellectual culture as well as home comfort.

Besides the ordinary course of education, boys are prepared and sent up for examination at the University.

Boarders are provided with all necessary furniture.

The Academy is a fine building, fitted up with every comfort, regardless of expense, and the play ground is spacious, covering an area of six hundred square yards, beautifully shaded with trees and vinery, and affording every amusement.

ROBT. BIRD.

SEMINARIO INGLES

En el gran edificio conocido por

COLEGIO DEL CABALLITO

Se recomienda a los padres o encargados de niños que deseen ponerlos como pupilos, que visiten el citado Establecimiento, para cerciorarse de las cualidades y ventajas que ofrece.

Sus espaciosos dormitorios ventilados y en condiciones higienicas irreprochables, sitio para recreo, jardin, huerta, y magnifica pileta de baño, en la que sin riesgo alguno, aprenden la natacion, hacen del Seminario Ingles uno de los mejores establecimientos de educacion, puesto que participa de las ventajas del campo y de la ciudad, con la cual unen dos lineas de tsamways.

El plan de estudios nomina de Profesores y la atencion asidua que se dispensa a los niños, satisfaran a las personas mas delicadas en materia de educacion.

ADOLFO L. NEGROTTO,
